

DRW1

Measure Wheel

Manual model

Lightweight measure wheel with metric readout, built in brake and stand.

DRW1

SPECIFICATIONS	DRW1
Wheel Type	Manual
Wheel Circumference	1m
Counter Units	Metres
Counter Range	99999.9m
Wheel Markings	centimetres
Weight	2.5kg
Accessories	Carry Bag
Warranty *	1 Year

* First owner only - Product registration required.

The Datum Measure Wheel has an aluminium folding handle that enables the wheel to be folded and stored in its included carrying bag. It has a rubber wheel for increased surface grip to reduce slippage, and the wheel is graduated to enable readouts of centimetre values during measurement.

The counter has an easy to read display for metre readings up to 99999.9m and features an easy access reset button. Included in the handle assembly is a pistol grip type brake button for precise wheel braking during measurement.

Supplied with a strong carry bag for easy storage, the wheel carries a 1 year return to base type warranty covering manufacturing defects.
