

## AB15TD 15m Fall Arrest Auto Descender

The 15m Fall Arrest Auto Descender is designed to provide fall protection from falls from height. Anchored above the user, it gives the user a safe area of work. The retracting line pays in and out of the device as the user moves. In the event of a fall, a brake engages, arresting the fall of the user with a controlled deceleration force, lowering the user to the ground.

Product Code:  
AB15TD

Conformance:  
BS EN 360  
BS EN 341 CLASS C

Cable:  
15m x 5mm Galvanised Steel

Max Recommended User Weight:  
150KG

Descent Speed:  
1.3 m/s (100kg)

Weight:  
18.7kg

Service Interval:  
12 months
