

77R ROTATING LASER WITH GRADE SLOPE FUNCTION

77R ROTATING LASER WITH GRADE SLOPE FUNCTION

The IMEX 77R is the most robust rotating laser level available for general levelling. It has a heavy duty water and dust-proof case, latest Laser-EDGE™ technology, huge 500m diameter range and manual slope mode making it the class leader in it's field. And with the legendary hi-viz green case, 5yr extended warranty and dual battery packs the IMEX 77R is the great all rounder.

Kit Inclusions

- Receiver
- Batteries
- Hard carry case
- Charger

Specification:

Self Levelling	± 5°
Accuracy	1.5mm @ 30m
Working Distance	Dia 500m with included detector
Rotation Speed	0, 60, 120, 300, 600rpm
Grade Slope	± 5° (Y axis only) 8.8%
Light Source	20m range
Remote Control	Laser Diode, 635nm
IP Rating	IP66
Battery	Ni-mh Rechargeable & Alkaline 20 hrs Ni=mh, 60 hrs Alkaline
Low Battery Light	Yes
Battery Charger	240v
Working Temperature	0°C-40°C
Detector	Fine and course setting, 45mm vertical range
Weight	2.2kgs
Kit	Laser, Detector with bracket, Charger, Hard carry case Alkaline battery.

Features

- Self - Levelling ±5°
- Accuracy = 1.5mm @ 30m
- Variable Speed
- 500m diameter range
- Fully enclosed laser diode
- Alkaline and rechargeable batteries
- Single manual slope mode to 8.8%
- IP66 water resistant, dust proof
- Out of level warning
- Remote Control
- Rechargeable Battery
